Quillan-Ronin Saga

Empires don't fall in battle. They fall in ledgers.

In the smoking aftermath, the real war begins: who writes the peace, who counts the dead, and who decides what the seventeen thousand cycles of the Auditor were for. Lukas wants rest. Aethoria wants a reckoning. And beneath the rebuilding, something patient is still counting.

The true resolution was never going to be clean.

Book Four of the Quillan-Ronin Saga.
