Quillan-Ronin Saga

Every legend has a side no one tells. This is his.

While Lukas carried the war, Fenris carried the silence — the hunts, the bargains, the price of walking into the dark so others could stand in the light. From the wheat fields of Oakhaven to the heart of the Rift itself: the saga as only the Wolfheart could tell it.

Your scars are the map to tomorrow.

A companion volume to the Quillan-Ronin Saga.
